How To Get Google RDP Free.

**Hello Dudes I Bring For you Google Free For One Year
RDP Method!**

I was trying to making easy to understand tutorial

Make sure you are signing to your gmail account in your browser before to start making an account at <https://cloud.google.com>

Let's start follow the pictures step by step.

Make sure your gmail account must be linked with your cell number.

Avoid making multi accounts from same HWID cause banned your RDP from Google. VPN not necessary up to you but batter avoided.

wait for few seconds

Setting up your free trial. ✕

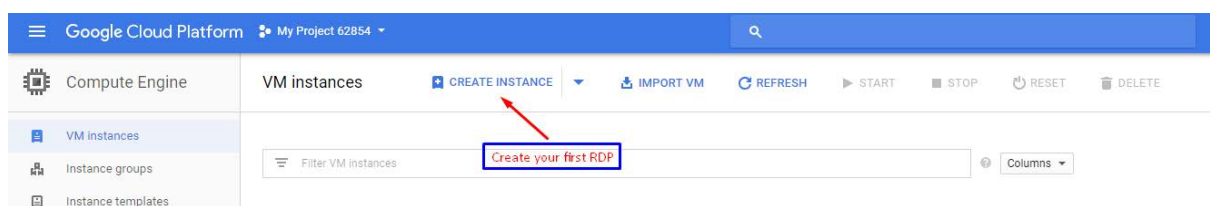

Here you need to wait for few seconds.

Congratulations you successfully make a google cloud account now you need some more steps for getting your free RDP.

Select compute engine then you move to next page.

Click create your first RDP project.

Chose specification's for your RDP server.

The screenshot shows the 'Create an instance' page in the Google Cloud Platform console. The left sidebar contains a navigation menu with 'Compute Engine' at the top and 'VM instances' selected below it. The main content area is titled 'Create an instance' and includes the following sections:

- Name:** A text input field containing 'instance-2'.
- Zone:** A dropdown menu set to 'us-east1-b'.
- Machine type:** A section with a note 'Customize to select cores, memory and GPUs.' It shows '1 vCPU' and '3.75 GB memory'. A red circle highlights the '1 vCPU' dropdown, and a blue box with the text 'Select cpu' points to it.
- Container:** A checkbox labeled 'Deploy a container image to this VM instance.' which is unchecked.
- Boot disk:** A section showing 'New 10 GB standard persistent disk' and 'Image: Debian GNU/Linux 9 (stretch)'. A red circle highlights the 'Image' dropdown, and a blue box with the text 'Choes Oprating Syestem' (sic) points to it.
- Identity and API access:** A section with a 'Service account' dropdown set to 'Compute Engine default service account' and 'Access scopes' radio buttons. The 'Allow default access' option is selected.
- Firewall:** A section with a note 'Add tags and protocols to allow specific network traffic from the Internet'. It has checkboxes for 'Allow HTTP traffic' and 'Allow HTTPS traffic', both of which are checked. A red circle highlights these checkboxes, and a blue box with the text 'Check Both' points to them.

At the bottom right, there is a 'Create' button and a 'Cancel' button. A red arrow points to the 'Create' button. On the right side of the page, there is a pricing summary: '\$24.67 per month estimated' and 'Effective hourly rate \$0.034 (730 hours per month)'. A 'Details' link is also present.

After building your RDP server you must set your RDP server user name and password.

Note: And this point must refresh your browser windows then you see on the top ad from google and click on the right side up blue button for upgrade!

VM instances

[CREATE INSTANCE](#) [IMPORT VM](#) [REFRESH](#) [START](#) [STOP](#) [RESET](#) [DELETE](#)

Filter VM instances Columns

Name	Zone	Recommendation	Internal IP	External IP	Connect
instance-1	us-central1-b		10.128.0.2	35.225.78.73	RDP

Congrates you have now your RDP

- Set Windows password
- View gcloud command to reset password
- Download the RDP file
- Learn about Windows auth

You must save your server IP number and your user pass.
